

Group 5: Milestone 1

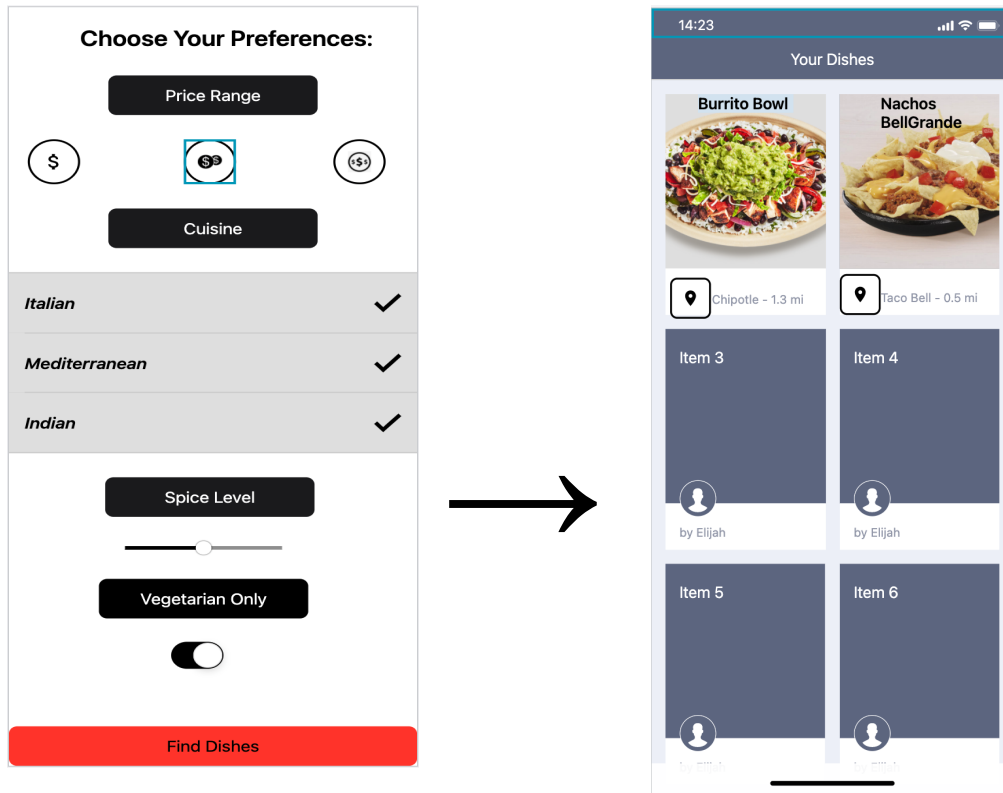

Sahil Sinha
Anant Patel
Aadil Shekh
Suraj Narang

Accomplishments:

- Finalized the design ideas
 - Agreed upon UI components to be implemented, as well as color and animation schemes
- Covered some of the backend development
 - Adding entries from the user
- Have the user allow to share location before entering food preferences (still in progress)

Here is our current glimpse of the UI:

Next Goals:

- Retrieval of food/restaurant information in the format of a scrollable list
- Be able to get the MapKit API and Yelp API working, and get Firebase working
- Finish up location request and programming user preferences portion
